

Standard version

WORKING BENCH	SADDLES LENGTH	NUMBER OF SADDLES
LOW	LONG	2
HIGH	LONG	4

Extraordinary versatility is what really distinguishes Icaro benders from other products of the same type: a high working bench makes maintenance procedures really easy because it avoids the sedimentation of metal powder on the working disc and in the gearbox. Being able to choose between long or short saddles gives end users great freedom while working and when installing optionals.

Technical features

WEIGHT Kg	1200
MEASUREMENTS cm	160x115x90
MOTOR (50Hz)kW/HP	7,5/10
MOTOR (60Hz)kW/HP	CUSTOM
rpm (50Hz)	5
GREASE kg	25
WORKING DISC Ømm	600

Our cutters follow CE standard European and worldwide regulations.

Quality control on our machines comply with ISO9001/2008 norms.

Bending capacity

65 kg/mm ²			85 kg/mm ²		
1	2	3	1	2	3
70 mm	42 mm	35 mm	60 mm	40 mm	34 mm

All our tests were carried out using iron bars coming from all over the world. The iron bars we used all followed these standards: *DIN 488, BS 4449/2005, BS4449/97, ASTM/A706/ A706M-00, ASTM/A615M-2000, UNE 36068, LNEC E450, NEN6008 (NL), NF A 35080-1, SD490 with different GRADE and toughness.*
